

FRRO Registration & Visa Extension in India — e-FRRO Help for Foreign Nationals

Sample / template — edit the [bracketed] details to match your case.

FRRO — WHAT WE ASSIST WITH, AND WHAT IT NEEDS

1. REGISTRATION (within 14 days of arrival)

For employment, student, research, medical and missionary visas:

- Passport bio page, visa page, arrival stamp
- Photograph to portal specification
- Proof of Indian address + owner's/institution's supporting paper
- Category papers: contract + employer letter / admission + bonafide letter / hospital admission papers
- Registration certificate issued — keep it for the whole stay

2. VISA EXTENSION

- Eligibility depends on your visa category and case
- Applied on the e-FRRO portal before the current visa expires — never after
- Supporting documents mirror the original category, updated

3. OCI MISCELLANEOUS & RELATED SERVICES

- OCI miscellaneous services
- Change of address, change of employer or institution
- Replacement of lost or damaged documents

4. WHAT WE DO

- Prepare and file the application on the official portal
- Check every scan and photo against the specifications
- Track the application and respond to document requests
- Tell you honestly when a case needs more than paperwork help — overstay and exit-permit situations can be legally sensitive

5. THE PROMISE

- Message or call any hour — a licensed consultant calls you back in your time zone within 12 hours
- Government fees are the government's; our fee is published
- The FRRO decides every application — nobody honest promises outcomes
